St. Peter's Institute of Higher Education and Research

St. Peter's Institute of Higher Education and Research is a deemed University located in Avadi, Chennai. It was formally functioning as a self-financing engineering college in the name of St. Peter's Engineering College since 1993. After attaining deemed University status in 2008, the institution has been focusing on academic excellence, higher education and research. The University offers 14 undergraduate and 10 post graduate programs in engineering, technology, architecture and management studies. The University also conducts M.Phil. program in Science, Humanities, Computer Science and application, and Management Studies, and Ph.D. program in Engineering and Technology, Science, Humanities, Computer Science and application, and Management Studies.

Institute of Management Studies

Our business school is committed to impart high quality management education to develop the students as competent corporate managers and entrepreneurs. The objective of the department is to hone men and women with competence, versatility, enterprise, problem solving ability and strategic perspectives essential to the leaders of business. The students are clubbed under various learning groups that enable them to have a free exchange of ideas. This encourages group discussions, virtues of self-study and to develop their communication skills.

Indian Medical Association

Indian Medical Association, established in the year 1928, is the only representative, national voluntary organization of Doctors of Modern Scientific System of Medicine, which looks after the interest of doctors as well as the well being of the community at large. The objectives of the Association are: to promote and advance medical and allied sciences in all their different branches and to promote the improvement of public health and medical education in India; to maintain the honor and dignity and to uphold the interest of the medical profession and to promote co-operation amongst the members thereof; and to work for the abolition of compartmentalism in medical education, medical services and registration in the country and this to achieve equality among all members of the profession. St. Peter's University has signed MoU with Indian Medical Association

Career Opportunities

The Indian healthcare industry, which comprises hospitals, medical infrastructure, medical devices, clinical trials, outsourcing, telemedicine, health insurance and medical equipment, is expected to reach US\$ 160 billion by 2017. The Indian healthcare assisted by IT market has been growing tremendously over the past few years. It is expected to grow at a CAGR of around 22.7 per cent during the period 2013-2015.

- Challenging job opportunities in medical institutes, hospitals, nursing homes and NGOs operating in the health care sector.
